

Hi 😊

My name is Filip and I want to tell you something about New York City. It is one of my biggest dreams to visit New York. There are a lot of attractions, for example :skyscrapers ,towers, museums and a lot more. What is more, the action of my favourite films and comic books about Spider -man takes place in NY.

In this legendary city, you can also explore popular places such as Central Park or Empire State Building. I also want to go to the Brooklyn Bridge because I could see the panorama of the city. What is more, I would like to admire the Statue Of Liberty, which is one of the most popular statues in the world and an obligatory point in New York.

In the *City That Never Sleeps* (a popular nickname of New York), you can do what you can only imagine, for example look at amazing things or discover the atmosphere .In *Big Apple* (another nickname of New York) it is never boring. I

think that this is one of the best cities in the world. I hope that one day my dream about visiting NY will come true.

There are some words you should learn before you go to NYC :

Bodega-a small store, where you can buy everything.

Example: I'm hungry; let's grab a bag of chips at the bodega around the corner.

Hero-a sandwich with meat, cheese, and vegetables

Example: Do you want a bite of my hero? It's delicious.

wait on line-In New York, when you wait to pay for something , you are waiting 'on' line, not 'in' line.

Example: I hate shopping on Black Friday. I always wait on line for almost an hour.
