

Filip Polit

VIIe

My biggest dream is to go to Rome, the capital of Italy. I have been in this country before, but I have never been to Rome. The journey would be easy, as there are two airports close to the city. This ancient city is worth visiting and has many attractions to offer. You may ask: why should you visit Rome? Well, this city has a very interesting history, from being the centre of a very strong and organized empire to being the capital city of Christianity. The best places I would like to see in Rome are: the Spanish Steps, the Vatican City, St. Peter's Basilica, the Sistine Chapel, the Forum Romanum. A very important place in the Vatican City is Pope John Paul II's tomb. I would find it interesting to see the famous she-wolf feeding Romulus and Remus, the founders of Rome. I would also like to see the Colosseum, a place where gladiators fought with each other or with animals, during the times of Ancient Rome. I am really interested in history, which is why I like seeing historical monuments. After seeing all the tourist attractions, I would enjoy the best Italian dishes like spaghetti and pizza, or meet the wonderful people of Italy and learn about their culture. English is a popular language and you can use it to communicate in Rome. The best sentences to use on a trip to Rome are:

-Good Morning

-Thank you

- Excuse me, where can I find the...?

- How much is it?

-Goodbye

-Nice to meet you

-Which way should I go?

I hope that one day, I will be able to make my dream come true and visit Rome.
